1. The following is an examiner's statement of reasons for allowance: the Examiner found no teaching in the prior art that would render obvious the claimed method and structure for passively determining agile-frequency-emitter location including "multiplying each baseline by the corresponding frequency... differencing the ambiguous phase difference with the predicted phase difference and estimating the resulting integer value; adding the integer value to the ambiguous phase; and associating the resolved phase change with spatial angle change and estimating emitter range from the angle change", claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

- 2. The Rose patents are cited to show various emitter location systems.
- 3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore M. Blum whose telephone number is 703-305-1833. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Tarcza can be reached on 703-306-4171. The fax phone numbers for the organization where this application or proceeding is assigned are 703-306-4195 for regular communications and 703-306-4195 for After Final communications.
